Informatics Engineering graduate from Gunadarma University with an interest in web and application development. Possesses skills in programming, database management, web and Android-based system development, as well as data processing and documentation.

EDUCATION

UNIVERSITY GUNADARMA **Bekasi, 2022 – 2026**

Industrial Technology, Informatics
Current: 3.85/4.00

SENIOR HIGH SCHOOL MARTHIA BHAKTI **Bekasi, 2019 - 2022**

Natural Sciences Major

WORKS EXPERIENCE

BAKRIE AUTOPARTS **September 2026 – Present**
WEB DEVELOPER

- Developed a website Enterprise Resource Information System using Angular
- Build HCIS modules for Attendance, Leave & Permission, Business Trip, and Employee Master Data.
- Applied modern Angular features, including Signals, Standalone Components, RxJS, and dependency injection.

SAGARA TECHNOLOGY **May 2026 – September 2026**
WEB DEVELOPER

- Developed a mobile CEO Suite application using Flutter for Android
- Implemented and maintained features for workspace browsing, office details, room booking, and booking management**.**
- Integrated REST APIs and handled application data using Flutter.
- Implemented authentication, booking, payment, and check in features.

BASARNAS **October 2025 – January 2026**
WEB DEVELOPER

- Developed a website for an ICT Monitoring and Recording System using PHP and MySQL.
- Developed the Magang Hub Basarnas website using PHP and MySQL.
- Designed website interfaces in Figma using UI/UX principles.
- Learned data center management and operational procedures.
- Performed basic security testing using Kali Linux.
- Deployed and configured websites on Windows Server.
- Conducted employee data management using Microsoft Excel.

PROJECTS

CEO SUITE APPS | LINK **Bekasi,2026**

Technologies: Flutter

- Developed a mobile application for workspace and office booking.
- Implemented features including authentication, office browsing, room booking, payment, voucher, and QR check-in.
- Integrated REST APIs for communication between the mobile application and backend services.
- Implemented state management and application navigation using Flutter-based technologies.

PAPAYA LEAF PLANT CHATBOT APPLICATION | LINK **Bekasi, 2026**

Technologies: Flutter, Firebase, Node.js, Express.js, Ai Machine, FAISS

- Developed an AI-powered chatbot application to provide information about papaya leaf plants.
- Built RESTful APIs using Node.js and Express.js for chatbot communication.
- Integrated FAISS for efficient vector similarity search and information retrieval.
- Implemented AI-based question-answering features to improve user interaction.
- Designed and developed a cross-platform mobile application using Flutter.
- Utilized Firebase for authentication and cloud data storage.

GYM APPLICATION | LINK **Bekasi, 2025**

Technologies: Flutter, Firebase

- Developed a mobile-based gym management application using Flutter and Firebase.
- Implemented CRUD functionality for workout and exercise data management.
- Integrated Firebase Firestore for real-time data storage and synchronization.
- Designed responsive and user-friendly mobile interfaces.
- Managed application state and data flow to improve user experience.

MAGANGHUB BASARNAS WEBSITE | LINK **Jakarta, 2025**

Technologies: php, javascript, mysql

- Developed a web-based internship management platform for BASARNAS.
- Built features for internship registration, participant management, and data tracking.
- Developed backend functionalities using PHP and MySQL.
- Implemented form validation and database integration.
- Created responsive user interfaces to improve accessibility and usability.

SIMONA CANTIK (SISTEM MONITORING PENCATATAN TIK) | LINK **Jakarta, 2025**

Technologies: php, javascript, mysql

- Developed a monitoring and reporting system for ICT activity records.
- Implemented CRUD operations for managing monitoring data and reports.
- Designed relational database structures using MySQL.

- Built dashboards for data visualization and management.

Developed responsive interfaces to facilitate data entry and monitoring processes

COMMUNITY YOUTH ORGANIZATION | LINK **Bekasi, 2023**

Technologies: Next.js, Typescript, PostgreSql

- Developed a web-based information system for a community youth organization.
- Built dynamic and responsive user interfaces using Next.js and TypeScript.
- Designed and managed relational databases using PostgreSQL.
- Implemented CRUD functionality for organizational activities and announcements.
- Applied modern web development practices for performance and maintainability.

HONEY SALES WEBSITE | LINK **Bekasi, 2022**

Technologies: html, css, javascript

- Developed a responsive e-commerce website for honey product sales.
- Created product catalog and product detail pages with interactive user interfaces.
- Implemented shopping cart functionality using JavaScript.
- Designed responsive layouts compatible with desktop and mobile devices.
- Optimized website performance and user experience.

ORGANIZATIONAL EXPERIENCE

COMMUNITY YOUTH ORGANIZATION **Bekasi, 2022 - Present**

- Developed a community information website for Karang Taruna using Next.js, TypeScript, and PostgreSQL.
- Coordinated with administrators and community members in collecting and managing informational content.
- Contributed to the planning and implementation of community social activities.

SCIENTIFIC PAPERS

UNIVERSITY GUNADARMA **Bekasi, 2025**

- Designed and developed a gym application using Flutter and Firebase.

CERTIFICATE

- Internship Program – BASARNAS – https://bit.ly/3PHwrpA
- Intelligent by Design: Build an AI Agent – IBM SkillsBuild – https://bit.ly/3RUnPwK
- Introduction to Large Language Models – IBM SkillsBuild – https://bit.ly/4x08r22
- Build An Ai Agent – IBM SkillsBuild - https://bit.ly/4fQSMvM
- Learned the fundamentals of Artificial Intelligence – Dicoding – https://bit.ly/4bV3bD1
- Learned the fundamentals of project management – Dicoding – https://bit.ly/3PYbE0Z
- Learned the fundamentals of web programming – Dicoding – https://bit.ly/4v30CaP
- UX Research – MySkill – https://bit.ly/3QcTCbj

SKILLS

- Front-End Development (Next.js, TypeScript)
- Back-End Development (PHP, Laravel)
- Database Management (MySQL, PostgreSQL, Firebase)
- Apps Development (Flutter)
- Web Deployment (Windows Server)
- Basic Penetration Testing (Kali Linux)
- Microsoft Excel
- Microsoft Word
- Microsoft PowerPoint
